

INTRODUCING HOLDER

Arvieux, France - January 27, 2015

K-Devices announces the availability of a new Max For Live device: **Holder**, a quality spectral freezer with exclusive advanced features.

Holder grabs short slices of sound, then transforms them in sustained tones, according to different **reading modes**, and advanced effects of exclusive **dronizer** panel. It creates **beautiful drones**, but it may be even used as a **reverb**, as a live **counterpoints** producer, and to enrich grooves with **rhythm-based madness**.

Sound design by: Hyena, Ivo Ivanov of Glitchmachines.

The Holder pack contains: 1 device, 62 presets, 42 Live clips, 1 Live set, >127Mb of exclusive samples.

More **info** / **audio** / **video** at [this link](#).

We asked to specialist **Brian Smith** (big brain audio) to realize a video overview for Holder. [link](#)

System Requirements

Ableton Live 9.1.7 or higher - Max 6.1.9 or higher - Mac or PC

Availability and pricing

Holder is exclusively distributed by Ableton for **19€/29\$**.

Bundle offer: Holder + [Alter Echo](#) are at **39€/49\$**.
