

INTRODUCING TERRA

Arvieux, France - November 26th, 2015

K-Devices announces the availability of a new product: **TERRA**, an incredibly powerful and versatile synthesizer for Ableton Live.

TERRA has a clear, straight but highly flexible structure, and numerous features. It allows the creation of any kind of sound, from bass lines, to edgy leads, to drones, morphing textures, layered pads, and so on.

Key features: high quality additive-generated interpolated wavetables for clear and huge sound, waveform manipulation functions, advanced FM and PM, lot of effects, highly customizable modulation structure, advanced unison mode.

The TERRA pack contains: 1 device, 133 presets.
